MEMORANDUM FOR THE RECORD:

SUBJECT: DCI conversation with Senator Jackson

Sen. Jackson said he called to pass word on to DCI that the people out in Seattle are most interested in the whole area of foreign policy, etc. and would like for DCI to come out and speak to a representative group similar to that before which DCI spoke in Lubbeck, Texas.

The date suggested was 27 April but "this is flexible." This would be a dinner and would be attended by about 700 people, a representative group, an orientation-type thing. The senior Vice President of Boeing would attend - the University people also.

DCI stated that he would like to do this as it has been some time since he was out that way. He told Senator Jackson that he would give this some thought and would let the Senator know. He indicated the suggested date might have to be changed.
